**To Whom It May Concern,**

This package contains non-hazardous biological samples from canine subjects to be used for research purposes (class: Exempt Animal Specimens).

The importation of these samples from countries within the EU does NOT require a permit.

The importation of these samples from countries outside of the EU has been approved by the Finnish Food Safety Authority Evira (DNo: 1323/04.01.06.00/2025). These are category 1 by-products.

These samples have NO commercial value (value of the samples is 1.00€).

These samples may spoil if left unattended at room temperature for more than couple of days. If needed, please contact the recipient directly to help expedite the processing of this package.
